DATE MAILED: 11/23/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Notification of Non-Compliant Appeal Brief (37 CFR 41.37)</b>	<b>Application No.</b> 09/817,323	<b>Applicant(s)</b> ROYER ET AL.	
	<b>Examiner</b> Zachary A. Davis	<b>Art Unit</b> 2137	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

The Appeal Brief filed on 08 September 2005 is defective for failure to comply with one or more provisions of 37 CFR 41.37.

To avoid dismissal of the appeal, applicant must file an amended brief or other appropriate correction (see MPEP 1205.03) within **ONE MONTH or THIRTY DAYS** from the mailing date of this Notification, whichever is longer.  
**EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136.**

1. ☒ The brief does not contain the items required under 37 CFR 41.37(c), or the items are not under the proper heading or in the proper order.
2. ☐ The brief does not contain a statement of the status of all claims, (e.g., rejected, allowed, withdrawn, objected to, canceled), or does not identify the appealed claims (37 CFR 41.37(c)(1)(iii)).
3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).
5. ☐ The brief does not contain a concise statement of each ground of rejection presented for review (37 CFR 41.37(c)(1)(vi)).
6. ☐ The brief does not present an argument under a separate heading for each ground of rejection on appeal (37 CFR 41.37(c)(1)(vii)).
7. ☐ The brief does not contain a correct copy of the appealed claims as an appendix thereto (37 CFR 41.37(c)(1)(viii)).
8. ☐ The brief does not contain copies of the evidence submitted under 37 CFR 1.130, 1.131, or 1.132 or of any other evidence entered by the examiner **and relied upon by appellant in the appeal**, along with a statement setting forth where in the record that evidence was entered by the examiner, as an appendix thereto (37 CFR 41.37(c)(1)(ix)).
9. ☐ The brief does not contain copies of the decisions rendered by a court or the Board in the proceeding identified in the Related Appeals and Interferences section of the brief as an appendix thereto (37 CFR 41.37(c)(1)(x)).
10. ☒ Other (including any explanation in support of the above items):

See Continuation Sheet.

Continuation of 10. Other (including any explanation in support of the above items):

Regarding item 1 above, the present Appeal Brief incorrectly states that there are no related appeals regarding the present application. There is currently a pending appeal in related application serial number 09/817,320. That application and the present application claim priority to the same provisional application, and the specifications of the two applications are substantially similar. Further, the Levergood reference, US Patent 5708780, is of record in both applications and there are outstanding arguments in both applications regarding the Levergood reference. Applicant is required to identify all prior and PENDING APPEALS and other proceedings which MAY BE RELATED TO, directly affect or be directly affected by or have a bearing on the Board's decision in the present appeal. See 37 CFR 41.37(c)(1)(ii). For the above reasons, application 09/817,320 is considered, at minimum, to be related to the present appeal, and therefore must be identified as a related appeal.

Regarding item 4(b)(2) above, the summary of claimed subject matter does not include references to the specification or drawings for each of the independent claims involved in the appeal. Specifically, the descriptions of independent Claims 16 and 18 on pages 5-6 of the Appeal Brief do not include any references to the specification or drawings.

The Examiner further notes that Appendix IV of the present Appeal Brief, the Table of Cases, does not list all cases cited in the Brief (see page 36 of the Brief, noting that *In re Oetiker* has been cited in the Brief, but not listed in the Appendix). The Examiner additionally notes that the Arguments in the present Appeal Brief appear to refer to references not of record in the present application (see page 43 of the Brief, last paragraph, noting the references to "*Moore et al*" and "*Armga et al*", which are not of record in the application).
